Professional Summary

Software Engineer with 2+ years of experience in React and React Native, building scalable cross-platform applications and **Server-Driven UI** architectures. Strong experience in designing schema-driven form platforms, role-based access systems, and **enterprise workflows** for insurance and fintech products. Skilled in translating complex business requirements into performant, maintainable, and scalable solutions using clean architecture and user-focused engineering.

Experience

Software Engineer

Monocept

April 2024 – Present
Gurugram

Delivered 3 enterprise-grade applications serving **100,000+ DAU** across iOS, Android, and web for *Axis Max Life Insurance* and *Aditya Birla Health Insurance*. Recognized with the **2024 ET CIO Award for Digital Transformation**. Collaborated cross-functionally with Product, Design, QA, and client stakeholders across the full SDLC.

mRec | React, Redux, TailwindCSS, TypeScript, Strapi CMS

🌐 Live

- Built config-driven dynamic UI rendering pages, forms, and inputs from JSON fetched at runtime from AWS S3 with a JSON rule engine for conditional visibility – enabled **zero-deployment updates**, saving **20+ dev hours/week**.
- Integrated Strapi CMS → S3 pipeline for stakeholder-managed schemas – eliminated developer dependency for **all workflow changes**, reducing release cycle time by **80%**.
- Optimised multi-stage recruitment pipelines with cross-role data handoff – cut processing time by **50%** and form errors by **60%**.

mSpace | React Native, JavaScript, Expo

▶ Android 🍏 iOS

- Engineered a SuperApp consolidating **5 standalone apps** into one platform via deep linking and modular navigation, serving **10+ internal tools** and improving task completion rate by **40%**.
- Implemented WebView with native download, sharing, and event interception – eliminated cross-app switching, improving task completion rate by **40%**.
- Managed token lifecycle (Cognito, JWT, refresh tokens) with proactive refresh and 2FA single-device lock – reduced unauthorized sessions by **50%**.
- Designed RBAC layer with event-driven push notifications and deep-link routing – secured feature exposure across **5+ personas** and boosted same-day user action rate by **35%**.

ABHI One | React Native, JavaScript, Expo, Redux

▶ Android 🍏 iOS

- Architected schema-driven form platform rendering **15+ policy workflows** from API metadata – reduced form development effort by **70%** and improved agent lead-to-conversion tracking by **30%**.
- Built in-app chat assistance with real-time FAQ and guided flows – automated **500+ queries/week**, cutting support tickets by **35%**.

Technical Skills

Languages: JavaScript, TypeScript, C++, SQL

Frontend: HTML, CSS, React.js, React Native, Redux, Tailwind CSS, Material UI, GraphQL

Backend & Cloud: Strapi CMS, REST APIs Integration, Google Analytics

Architecture: Server-Driven UI, RBAC, Schema-Driven Forms, OOP

Development Tools & Practices: Git, GitHub, GitLab, Postman, Copilot, Claude, JIRA, Agile

Education

Ajay Kumar Garg Engineering College, AKTU

Bachelor of Technology in Information Technology (CGPA: 7.4 / 10)

2020 – 2024

Ghaziabad, Uttar Pradesh

Achievements & Certifications

Achiever of the Month – Jan 2026: Recognised at **Monocept** for delivering high-impact features.

Competitive Programming: Solved **600+ DSA problems**; **1650+** on [CodeChef](#), **1650+** on [LeetCode](#), **1250+** on [Codeforces](#).

Udemy React Native: Completed a **28-hour** React Native training program under *Maximilian Schwarzmüller*.

Udemy React: Completed an **84-hour** React.js training program under *Jonas Schmedtmann*.

Coding Ninjas: Certificate of Completion for Data Structures and Algorithms in C++.
